EDUCATION

- **Pune Institute of Computer Technology** Pune, India
Bachelor of Engineering in Information Technology (CGPA: 9.15) *Aug 2019 – Apr 2023*

SKILLS

- **Languages:** C++, JavaScript, TypeScript, Bash, Dart, Python, Java, SQL
- **Frontend:** React, Next.js, Flutter, Tailwind, Astro, HTML, CSS
- **Backend:** Node.js, Express, Prisma, MongoDB, PostgreSQL
- **Tools:** Linux, Git, Postman, VSCode, Android Studio

WORK EXPERIENCE

- **BeyondWalls** Pune, India
Product Engineer – Flutter *Sept 2023 – Jan 2024*
 - Implemented a **Video Tour** functionality in the app that allowed brokers to showcase property listings visually, thereby increasing reach and driving faster sales
 - Developed a functional interactive prototype from scratch, complete with UI elements and intuitive user interactions, to demonstrate the potential of a new external app
- **Kylas CRM** Pune, India
Product Engineer Intern – Flutter *Feb 2023 – Aug 2023*
 - Successfully completed a two-month training program, acquiring a strong foundation in Flutter and best practices for writing maintainable code.
 - Developed features such as "Quick Actions" and "Import Contacts" that significantly **reduced user clicks** and automated manual tasks, improving overall efficiency.
- **Huf India and PICT (In-house Project)** Remote
Web Developer Intern *Sept 2022 – Feb 2023*
 - Led a team of four developers in the development of an **Industry 4.0 web-portal** using the MERN stack, cloud deployments, and socket-based message passing
 - Collaborated with cross-functional teams and the client to successfully implement digital transformation of existing paper-based processes
 - Implemented streamlined notification rules and real-time dashboards to enhance efficiency, significantly reducing downtime and accelerating response times.

PROJECTS

- **Threadit** | [Demo](#) | [Code](#) *NextJs, Tailwind, Prisma, Supabase, React Query, NextAuth*
A social media web-app focused around communities where users can browse communities and their posts, comments. Logged-in users get a personalized feed of communities they've joined. They can join as well as create communities, write posts with rich content support, vote, comment and reply on the posts
- **Code Journal** | [Demo](#) | [Code](#) *Astro, CSS, Typescript*
A fast lightweight site generated upon markdown files to organize and showcase my coding notes with support for syntax highlighting, dynamic light/dark themes, diagrams and math expressions

VOLUNTEERING

- **Dreamcatchers Club** | Mentor *Mar 2023 - Apr 2023*
Guided high-school students in software development, introducing them to various aspects of the field and facilitating the creation of mini-projects.
- **PCSB** | Problem Curator *Nov 2021 – Feb 2022*
Created challenging coding problems for college competitions. Monitored and ensured the integrity of coding contests, addressing any discrepancies in problems or test cases.
